- A. Effective April 29, 2003, each of the Agencies and the Contractor entered into Contract #229944 ("Contract") to implement a Regional Fare Coordination System ("RFC System") to establish a common fare system utilizing smart card technology. Agreement

Section 1.0 Description of Work

- 1.1 The Contractor will perform the work necessary to modify the Business Account Website to allow for the discretionary block of card registration by performing the following:
 - (a) Update BA agreements to include a new flag indicating whether card registration is valid for each agreement.
 - (b) Label the new flag "**Card Registration Not Permitted**" with a check box to indicate when it is not a valid option for that agreement. Add the field and checkbox to the BAW Program Information page,
 - (c) Set the default value for the box to unselected, consistent with the standard for Business Accounts which is to allow card registration. The Lead Agency user must explicitly select the box if the Business Account does not allow card registration, however, both the Lead and Participating Agencies can view whether or not the box is selected.
 - (d) Ensure the field is not visible to Business Account users (it is visible to Lead and Participating Agency users only).
 - (e) Ensure the field is dynamic and can be checked or unchecked at any time. The setting applies to all future attempts at card registration. Modifications to the field will be logged.
 - (f) Modify the CHW, CCW and CST so that whenever a card registration function is performed, the system will query the field identified in 1.1 (a & b) above.
 - (g) Implement functionality so that if a card registration is attempted with a card serial number belonging to a Business Account agreement that does not permit card registration and has the subject flag checked, the registration will not be allowed and the system will display the message: "**This Business Account card cannot be registered at this time. Please contact your Business Account representative for more information.**"
 - (h) Ensure that if a card is disassociated from a BA agreement, the card registration block check will no longer apply and the card can be registered via the standard process.

- 1.2 The Contractor will update the system documentation listed below and agrees to make additional documentation updates(s) which are within the scope of work of this Amendment as mutually agreed by the Contractor and the Agencies and were omitted at the time the Amendment was executed.
- (a) SEA-00045 Customer Service Terminal (DR 108)
 - (b) SEA-01539 ORCA Call Center Website Functional Specification
 - (c) SEA-01438 ORCA Cardholder Website Functional Specification

 - (f) SEA-01868 Business Accounts Website Operations – Instructor Guide
 - (g) SEA-01867 Business Accounts Website Operations – Presentation
